

Early Chodosh Start?

Warning: The Chodosh season maybe starting earlier than usual! We have received indications that spring wheat in the New York area may become Chodosh as early as the end of July. We plan to issue updates as more information becomes available.

Chodosh early start - - more

Advance indications are that the harvest of all 3 crops, Spring wheat, barley and oats will be earlier than usual. Please don't ask me yet about any specifics. I should know more in 1-2 weeks.

Yoseph Herman

Chodosh - 3rd note

The harvest has not yet started for any of the 3 crops. Everything is still Yoshon. The mid West may see some chodosh wheat as early as the 3rd week of July. Oats products everywhere, maybe in about 3 weeks. Next estimate to come next week.
