Pillsbury All-Purpose Flour Recall

Although the FDA posted a notice in a Twitter feed about a recall on Pillsbury All-Purpose Flour, (https://twitter.com/US_FDA/status/1105169705659232257), we are happy to report that the date codes listed are all *Chodosh*, and do not affect those who keep yoshon.

If you know someone who does not keep yoshon and uses this flour, the date codes have expiration dates of April 19, 2020 or April 20, 2020, with the Lot Codes of 8292 or 8293.

Publix stores issued this statement on the recall: "Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase for a refund."

March 6, 2019: COR Detroit issued an alert stating that Lipton Kosher Soups from Israel are under reliable hashgacha from the OU (Meat), but those from Israel will have "Kosher" printed in large letters on the front of the box. (Source: COR Detroit)

[This means that the Lipton Kosher Chicken Noodle Soup which contains wheat, is also yoshon. The Onion, Vegetable and Ranch flavors have no problematic ingredients, so they are automatically yoshon.]

March 13, 2019: We were sent a notice from Project Chodosh in response to a question we received concerning Katz Gluten-Free Oat Challah:

"Katz's gluten free oat Challah is not checked by any hashgocho for Yoshon status."

Purim Sameach!
