Kedassia Yoshon Update #1

November 2, 2020 – TYNI Receives Kedassia Yoshon Alert#1 for 5781

This was issued in September, but it is still valid and in effect, and concentrates mainly on oat products in the UK. Unfortunately, the situation is not the same as last year! (The status of Irish oats being *yoshon* throughout the season does NOT apply this year.) The Direct Download Link is below:

A Kedassia flours update is reported to be forthcoming. We will post it when we receive it. There have been quite a few questions on flour from the UK. For now, it is still all *yoshon* .
