Updated Yoshon Flours List

November 29, 2022 – Lots of Yoshon Flours in the Updated List!

At first, this season looked rather bleak in the way of *yoshon* flour availability, but B"H, it turns out there are more than last year! Here is our updated list of *yoshon* flours. Dates only need to be checked for the flours that contain malt if one holds that malt is a problem. The Direct Download Link is below:

November 29, 2022 – Yoshon.com is Now Fully Updated with All US Cutoff Dates!

For items that will not change, such as mainstream brands, the dates are fixed. This does not include ongoing updates and changes due to companies running out of *yoshon* flour and the like. Those items will be updated as we get information, but at least that is much more gradual.

This year, companies implemented new packaging, creating the need for updated pictures. Several brands also changed product shelf-life times, which had to be researched, since the shelf life time directly impacts the best by cutoff dates for many items. Ingredient and *hashgacha* changes also are taken into account, and all these little behind-the-scenes factors add up, contributing to the speed of updating the site.

B"H, Yoshon.com does keep growing as we add more products, and there are now over 2300 product entries, and over 8700 UPCs. We appreciate everyone's patience, and hope that finding product information will be a lot easier for everyone now.
